**THE SPECIFICS:** We will travel by car to the planetarium that is located in the Kalamazoo Valley Museum. We will park in ramp, and there an additional charge for this (about \$2). The planetarium show we will be viewing is entitled "In My Backyard." This program is intended for young children and we will learn about the seasons, things we see in our neighborhoods, and a little bit about the planets and our place in the solar system, which is our current topic in science. After the show, we will have about 1/2 hour to give the children a "taste" of the museum. The children will be dismissed when we return which will be at or near the regular time.
